Octote Soul Sounds

Divinorum

Fruitmeat/Giant Step

Continuing to ensure that the rich musical legacy of Fela Kuti lives on through a new musical generation, Martin Perna of the excellent Antibalas unleashes yet another new project. This time round he's teamed up with The Mighty Imperials' Nick Moyshon and Leon Michels for yet another deftly administered lesson in the ways of the Afro-beat. As ever the emphasis is on the traditional sound. Raw, percussive, low slung and funky as fuck. Mr Perna, give yourself a big pat on the back, Fela would be proud! ■■■■ (FS)
